UKRAINE

07.05.2019 Officers of the Department for Combating Illicit Trafficking of Drugs and Weapons as well as for international cooperation of the Odessa Customs DFS and UAS in the Odessa region revealed a unique way to transport a large amount of cocaine. As a cargo of cover for a consignment of cocaine, which arrived in a seaport from Colombia, there was a consignment of construction paints. Visually, with the help of rapid analyzers and dogs, it is impossible to determine drugs in the cargo, since cocaine was mixed with building materials. Specialists from the Odessa Division of Examination and Research of the Tax and Customs Examination Department of the State Fiscal Service of Ukraine detected cocaine in the samples taken. In particular, some 30-kilogram buckets contain up to 3 kg of cocaine. This gives grounds to predict that the detected consignment may become one of the record consignments of cocaine. The commercial weight of the delayed cargo is 19.5 tons. The total amount of pure drug will be determined after examination. On this fact, the Odessa customs officers sent to the law enforcement agencies a notice of a criminal offense under Art. 305 of the Criminal Code of Ukraine. <http://sfs.gov.ua/media-tsentr/mitni-novini/377382.html>
