**OTHER COUNTRIES**

**AUSTRALIA**

24.04.2020 In March this year, detectives from the Drug and Firearms Squad of the State Crime Command established Strike Force Cassea to investigate importation of drugs into New South Wales. Based on information received from the New South Wales State Police Force, Australian Border Force (ABF) and Australian Federal Police (AFP) officers at the Sydney Container Verification Centre inspected a shipment that arrived in Sydney from Iran in early April. The claimed cargo contained bottled water, but inspection showed that it was methylamphetamine, nearly 160 litres in volume. The cargo is estimated to be worth $80 million. Detectives in an ongoing investigation indicted two men, aged 33 and 48, who were involved in importing and accessing a shipment of methylamphetamine in Old Guildford. 24.04.2020 Federal Revenue Service (IRS) Customs seized 14.8 tons of cocaine in the first quarter of 2020, 15.3% more than a year earlier. At the same time, 40 per cent of drug seizures were made in the port of Santos. Even with added challenges posed by the COVID-19 pandemic, which exposed IRS officials to risks other than those inherent to combating drug trafficking, cocaine seizures continue to increase. In order to combat movement of drugs in the country, the agency continuously invests in technology, training of public officials and intelligence activities, such as information exchange with national security and customs administrations in other countries. About 40 per cent of cocaine seizures by IRS occurred at the port of Santos (SP), the largest port in Latin America, where 6.1 tons of cocaine were seized. Other ports where large quantities of drugs were seized (2.6 tons
25.04.2020 Customs of the Federal Revenue Service (IRS) detected **911 kg of cocaine** in an export cargo in the port of Santos, on the coast of Sao Paulo. The cargo was destined for the port of Hamburg, Germany. Drug was found as a result of a routine inspection in a container containing a shipment of orange oil, which had been selected for inspection using objective risk analysis criteria, including non-intrusive inspection by a scanner. The specifics of drug concealment pointed to the use by criminals of the criminal "Rip-off method", in which drug was placed in a legal cargo without the knowledge of exporters and importers. Seized cocaine consignment was transferred to the Federal Police, which will continue investigation based on information provided by IRS.

22.04.2020 Organized drug group activity, which specialized in manufacturing and selling wholesale consignments of psychotropic substances and precursors, was blocked by the SBU in metropolitan area. The group was organized by a former teacher of chemistry - professor of a higher educational institution in Kyiv. The defendants established production of psychotropic - amphetamine and cathinone, as well as precursor - phenylpropanone. Two clandestine laboratories were set up at the residence of the group leader in the capital and in the garage of a rented private house in the Kiev region. Chemicals for manufacture of illicit substances were obtained from countries in Asia and Western Europe, including through international mail services. They stored raw materials in a rented warehouse in Kiev. Finished products were offered by group members on a specially created website and through specialized internet platforms. The organizer of the group passed obtained knowledge and experience in production of psychotropic substances to other underground "specialists" among representatives of criminal circles for money. During searches of drug labs, warehouses and an online store, law enforcement officers seized more than **1 kg of amphetamine**, **more than 5 kg of cathinone**, **more than 9 kg of phenylpropanone**, which is the main component for the manufacture of psychotropic substance amphetamine, and more than **80 litres of other precursors**. Almost 2 kg of cannabis, 2 litres of mercury, more than 1 ton of chemicals and equipment for production of psychotropic substances were also found. Of the seized substances and precursors, the perpetrators planned to produce almost **30 kg of psychotropic substances** worth UAH 7.5 million. The question of informing participants of the drug group about suspicion is being resolved. The operation was conducted by the Chief Department for Combating Corruption and Organized Crime of the SBU under procedural supervision of Kyiv Local Prosecutor's Office No. 6 with the assistance of the Office of the Prosecutor General of Ukraine.
